

DILIP KUMAR B

Salesforce Marketing Cloud (SFMC) Architect

moon.dilipkumar@gmail.com | +91 86601 63849 | Bangalore, India

PROFESSIONAL SUMMARY

Salesforce Marketing Cloud Architect with 12+ years of overall IT experience, including 9+ years dedicated to SFMC and 4+ years in technical leadership roles. Skilled in architecting end-to-end marketing technology solutions, designing email templates and CloudPage-based landing pages as per client requirements, and building custom AMPscript/SSJS-driven applications. Currently leveraging Claude AI to accelerate development and improve code quality across CloudPages, email builds, and internal tools. Holds 8x Salesforce Marketing Cloud certifications and has 2+ years of prior experience in manual/QA testing.

CORE SKILLS

- **Scripting & Development:** AMPscript, SSJS, JavaScript, HTML/CSS, SQL, Bootstrap
- **SFMC Platform:** Email Studio, Mobile Studio, Web Studio (CloudPages), Automation Studio, Journey Builder, Content Builder, Contact Builder, REST API & Integrations, Contact Deletion, Personalization
- **Architecture & Solution Design:** Email template architecture, CloudPage/landing page design, Data Extension design, integration architecture with Salesforce CRM objects, coding standards & best practices
- **Salesforce Data Cloud (CDP):** Data Ingestion, Data Source Object (DSO), Data Lake Object (DLO), Data Model Object (DMO), Segmentation, Activation
- **CRM Object Integration:** Fetching, creating, updating, and troubleshooting Salesforce CRM objects (Account, Contact, Opportunity, custom objects) using RetrieveSalesforceObjects, CreateSalesforceObject, and UpdateSalesforceObject in AMPscript, with robust error handling and data validation
- **Governance & Compliance:** Platform governance, data privacy and consent management (GDPR/CAN-SPAM-aligned), solution documentation, and technical design leadership
- **AI-Assisted Development:** Using Claude AI to design, build, and troubleshoot AMPscript email templates and CloudPage landing pages
- **Methodology:** Agile/Scrum delivery, sprint planning, stakeholder management

PROFESSIONAL EXPERIENCE

- Associate Technical Specialist — Dbiz.ai, Bangalore | Dec 2025 – Present
- Tech Lead — Tech Mahindra, Bangalore | May 2022 – Nov 2025
- Module Lead — Mindtree India Pvt. Ltd, Bangalore | Apr 2021 – May 2022
- Senior Developer — Silverline India, Bangalore | Jan 2020 – Apr 2021
- Quality Engineer — Theorem India Pvt. Ltd, Mysore | Aug 2017 – Jan 2020
- Software Engineer — Pradhyota Technologies, Bangalore | May 2016 – Aug 2017
- Associate Software Engineer — Accenture India Pvt. Ltd, Bangalore | Jun 2014 – Mar 2016

WORK HISTORY

SFMC Architect | Dbiz.ai, Bangalore (Client: Aldar Properties)

Dec 2025 – Present

- Own end-to-end architecture of SFMC solutions — Email Studio, Journey Builder, Automation Studio, CloudPages, and Data & Personalization — translating business requirements into scalable, secure marketing automation for a leading real-estate enterprise.
- Lead technical design sessions and define governance frameworks that keep the platform scalable, compliant, and built for reuse across teams.
- Integrate SFMC with Salesforce CRM and enterprise systems via REST APIs and data connectors, enabling real-time exchange of Account, Contact, Sales Order, and custom-object data.
- Use AMPscript, SSJS, and SQL to build advanced personalization and audience segmentation across the customer journey.
- Design intelligent, monitored Journeys and automations with built-in alerting to ensure reliable, error-free execution.

- Uphold data governance and privacy best practices (GDPR/CAN-SPAM-aligned consent management) across all customer communications.
- Pioneer AI-augmented development on the team — using Claude AI to design, build, and debug AMPscript CloudPages and email templates, cutting build time significantly while maintaining enterprise-grade code quality.
- Guide and mentor developers through code reviews and a documented AMPscript architecture playbook — coding standards, reusable CloudPage patterns, and structured error handling now used as the team baseline.
- Partner with CRM, IT, and Marketing stakeholders to align data models and technical strategy across systems, acting as the technical bridge between business and delivery.
- Delivered flagship builds end-to-end: a QR code campaign-tracking platform (scan logging, geolocation, device detection, auto-expiry); a 360° Owner Intelligence Portal unifying CRM data with single and bulk search; live Chart.js dashboards for an election-results tracker and training-booking system; an AJAX-driven gamification experience; and a self-service email engagement tracker.
- Own solution documentation, troubleshooting, and platform optimization across CloudPages, Data Extensions, Automation Studio, and Salesforce CRM integrations.

Tech Lead | *Tech Mahindra India Pvt. Ltd, Bangalore*

May 2022 – Nov 2025

- Led end-to-end SFMC delivery — email templates, landing pages, preference pages, Data Extensions, SQL-based segmentation, and Journeys — while managing, mentoring, and setting goals for the team.
- Built out the Salesforce Data Cloud (CDP) capability — Data Streams, DLOs, DMOs, segments, and activations — feeding activated audiences into SFMC.
- Consistently delivered within Agile sprints while managing team performance and resolving delivery blockers.

Module Lead | *Mindtree India Pvt. Ltd, Bangalore*

Apr 2021 – May 2022

- Owned task allocation and quality review for the team, ensuring deliverables met scope, cost, and schedule.
- Set up core SFMC infrastructure (Data Extensions, Automation Studio, Microsites) and ensured cross-client, cross-browser email rendering.

Senior Developer | *Silverline India, Bangalore*

Jan 2020 – Apr 2021

- Built dynamic, AMPscript-personalized campaigns and editable HTML email templates for high-priority, tight-timeline client campaigns.
- Customized Salesforce (fields, page layouts, validation & workflow rules) and built custom preference centers across Sales, Service, and Health Cloud.

Quality Engineer | *Theorem India Pvt. Ltd, Mysore*

Aug 2017 – Jan 2020

- Built and QA-tested responsive HTML email campaigns (PSD-to-HTML) across browsers and clients using Litmus/Email on Acid, ensuring CAN-SPAM compliance.
- Created Data Extensions and SQL-based segmentation logic run through Automation Studio.

Software Engineer & Associate Software Engineer | *Pradhyota Technologies & Accenture India Pvt. Ltd, Bangalore*

Jun 2014

– Aug 2017

- Started career in front-end development (HTML/CSS/Bootstrap) and QA testing — functional, integration, system, and regression testing with end-to-end defect tracking.
